After the most successful Vero Beach Airshow in its history, airport staff can continue to look toward the future successes. The Vero Beach Regional Airport has seen tremendous growth since 2023. Commercial passenger service has outpaced the airport's Master Plan projections for the year 2043! As a regional airfield, Vero Beach Regional Airport carries out over 300,000 flight operations annually with growth up 25% over last year. The 3 commercial airlines, Jet Blue, American and Breeze Airways tallied over 43,000 passengers in March of 2026, a 30% increase. Ryan Butler reported that the Tourism Tax took in record revenue of over \$892,000 in the month of April. What is the future of VRBA? Join us June 1st!
